

60th Anniversary Family Partnership

From its very beginning days, when Head of School Ted Truslow announced the importance of creating a “nurturing environment” for students and families, MVS has maintained this family-like environment. It is, in fact, our families that have given the school its unique character. A handful of local families initiated the drive for the school’s founding, and supported its growth with their own resources and commitment- something that has characterized the school throughout ensuring years.

Families who have given their time, talent, and treasure have assured the position of MVS as the top school in Dayton for many years. As we celebrate 60 years as The Miami Valley School, we offer a unique opportunity to recognize current and alumni families who have sustained the school with their generosity and commitment. You can recognize your family and others as a Legacy Leader or Community Friend in this unique celebration of an important milestone.
